Further exciting news for our cricketers of all ages at Livingston Cricket Club...

Following the recent arrival of a brand new set of Test Match standard covers, we are pleased to announce that we have been successful in **two further funding applications** to augment and improve the facilities available at the club.

Firstly, we were succesful in an application to **Awards for All** which will enable us to install a permanent 2 bay 30m practise area. See below for a sample of what the finished area will look like. (Thanks to our friends at Glenrothes CC for the use of their image).

Secondly, we have just received notification from **Cricket Development Trust Scotland** that we were also succesful (subject to satisfactory completion of a couple of conditions) in an application towards funding a new

Bola Bowling
machine. This will complement the net facilities beautifully.

Permanent Nets and Bowling Machines!!
